**Abstract** TODO

(1)

If I do not leave any blank lines  $\text{\LaTeX}$  will continue this text without making it into a new paragraph. Notice how there was no indentation in the text after equation (1). Also notice how even though I hit enter after that sentence and here  $\downarrow$   $\text{\LaTeX}$  formats the sentence without any break. Also look how it doesn't matter how many spaces I put between my words.

For a new paragraph I can leave a blank space in my code.
